NOTE ON DNF (Did Not Finish) CODES

Enter 888 when a player has not notified the TD they will not be playing the next scheduled round. Enter 888 when a player has been confirmed to have manipulated their score or dropped out to preserve their rating. For all other cases where a player was not able to finish the round, enter 999

Division Codes: Use the following 3 digit codes in the DivCode field.

PROF	ESSIONAL DIVISIONS	AMAT	EUR DIVISIONS		RATINGS	DIVISIONS	JUN	IIOR DIVISIONS

FP65	Women Master Pro 65+						_	

Instructions

FP70 Women Master Pro 70+

- Enter players names in Proper Case = John Smith (Do NOT type in players as john smith or JOHN SMITH or John SMITH, because the PDGA database cannot process official results in these formats)
- TOTAL column L adds up round scores automatically
- If your event included Semi and/or Final Rounds, enter those Scores in columns J & K.
- Do not leave a blank line between one division and the next division.
- Be sure to include the amounts of pro cash won in the Cash/Value column if event had Pro cash payout
- DO NOT include prize values in Cash/Value column for Ams who played Pro and declined cash, but DO add that value in cell T23 on the Cover page so your event gets credit for total value paid out in Pro divisions.
- · Use a Sort button to sort players by division and score so places of finish reflect their place within their division only and not their place within the overall event.
- In column N, enter Yes for each amateur who declined accepting cash payout.
